

# "Tiny One's Journey" The <32 Weeks NICU Rhyme

Born too soon, in NICU they stay,  
**Fluids start at 80** that very day.  
**ROP gets booked** on Day 0 sheet,  
**Cranial scans** — one early, one six-week  
treat.

Tiny veins, too small to prick,  
So **TPN runs through UVC, then PICC.**  
**Caffeine kicks in** from the very start,  
To help those lungs play their part.

**Feeds begin**, we take it slow,  
**Labinic** joins once **24h in** we go.  
Once **fully fed, Abidec** too,  
And **TPN says goodbye** — we're through!

**Caffeine and Labinic?** Off at **34**,  
But **Abidec** stays a little more.  
**First bloods at three weeks**, routine's tight,  
**FBC, U&Es, and bone panel** right.

Then **every two weeks** the labs return,  
As little ones feed, grow, stretch and learn.  
From birth to home, each little feat,  
A rhyme for care that's calm and neat.
